WORLD

1 Overall situation

We are in the year 2020 A.C.. All of Altis is captured by CSAT...All of Altis? No! A few sturdy greeks don't stop to fight against the invaders. And that is not easy on the iranian soldiers that occupy the fortified camps.

We will make their lives hell: Wherever we can we sting them in their flanks.

Caution though! NATO - who allied with the greek government and which we hate equally as CSAT because of this - wants to take our island away from us as well. They have declared us to be a terrorist group...And this although we are men of the people. The island will be ours again! And every invader - be it east or west - will find only one thing here: Death!

2 Situation and mission

We observed an emergency landing of a NATO reconnaissance helicopter in the south-west of the island. A bad omen as it indicates that they are preparing an invasion. Therefore we have to try to expand our sphere of influence as fast as possible. If we can disperse CSAT from our island, this could prevent a NATO invasion and fortify our entitlement to power over Altis. Therefore our primary goal is to bring CSAT as many losses as possible by seizing the following tactical positions:

- Radio tower on the mountain Magos (045-154)
- Checkpoint between Kavala and Neri (039-122)
- Observation point on the Riga mountain (092-114)
- Castle on the southern peninsular.

2.1 Our forces

- Lead
 - Squad 1
 - Squad 2
 - Squad 3
 - Scout Team 1
 - Scout Team 2
 - AT-Team 1
 - AT-Team 2
 - HMG-Team 1
 - HMG-Team 2
 - Reconnaissance and transport helicopter (MH-6)

The supporting lead slots can be used in order to group the subunits into platoons.

3 Our positions

- Our lead team, Squad 1, AT-Team 1 as well as our helicopter are located in our hideout about a kilometer north-east of Zaros. We also have two trucks there.
- Squad 2, AT-Team 2 and Scout-Team 2 wait in the hideout to the south of Neri. For transportation they have a truck, a pickup as well as a Technical with SPG-9
- Squad 3 and HMG-Team 2 dug themselves in in the south of Agela. There they also have a truck and a Technical with Browning.
- Scout-Team 1 and HMG-Team 1 hide together with their pickup and HMG-Technical in a hideout opposite of the gas station near Topolia.

4 Enemy positions

We don't know where exactly the NATO helicopter came down. But a big smoke column could lead our way to them. If not, we still have our eyes in the sky.

CSAT has several camps in this area. You should know what their approximate locations are...
